Mr. William E. Hale
District Chief, Water
Resources Division
P.O. Box 26659
Albuquerque, New Mexico 87125

JUN 15 1978

Dear Mr. Hale:

Enclosed is a copy of the program of requirements for the study of ground water response to uranium mining in the San Juan Basin. Please review the program and let us know if it is satisfactory. If it is satisfactory, as we believe, then you should proceed with the work.

In the meantime, we have requested that the BIA Washington Office resolve the issue of publication of results. We should hear from them shortly.

Sincerely yours,

Robert D. Buchanan
Project Leader
